

Ibrahim Emre Polat, Senior Developer

Pancarlı Mah. Cemil Alevli Cad. Ahmet Oktar Apt. Kat 1 No 2, Gaziantep, Turkey, 5348249797, ibrahimemrepolat@gmail.com

PROFILE

I'm a detail-oriented professional with a strong track record of **analytical thinking** and **problem-solving skills**. I thrive in dynamic environments and am particularly skilled at **time management** and **multitasking**, ensuring high-quality work is always delivered on schedule. I'm proactive in identifying and resolving issues, and I truly enjoy collaborating in **team settings**, including those with **diverse cultural backgrounds**. My strong communication and interpersonal skills help me connect effectively with people at all levels.

On the technical side, I have extensive experience in **object-oriented programming**, specifically with **C#, T-SQL, ASP.NET MVC, ASP.NET Web API, and .NET Core**. I'm proficient in **REST and SOAP web service technologies**, and I have practical knowledge of **cloud-based solutions**, especially **Azure**. I'm always looking to improve my skills, staying current with evolving technologies and methodologies. I also adhere to **SOLID principles** and have experience with **microservices and modular monolithic architectures**, plus I'm skilled in using messaging services in my projects.

Ultimately, I'm a strong team player with exceptional analytical abilities, great time management skills, and a proactive mindset. My programming expertise and commitment to continuous learning make me a valuable asset to any team.

EMPLOYMENT HISTORY

Jul 2024 — Present	Senior Backend Developer(Contract), ampicade- (aldi-deals.de)	Köln
	I work as the Backend Developer on the Aldi Deals platform, handling all backend responsibilities. The system is built with ASP.NET Core using a DB-first and microservices approach, with separate services for payment,users,and messaging. I integrated Keycloak for authentication and authorization, Payone for payments, and ETC for code validation. we use Azure Service Bus, Blob Storage, and WAF, while content is managed through Umbraco CMS. The platform runs in containers managed by Kubernetes
